

EuroMed Action 3: Seminar

The idea: A seminar with around 15 participants from 3 different countries meeting in Israel during the summer. The seminar will be 4-5 days.

Goals:

1. Learning from other organizations dealing with issues of culture inclusion, dealing with youth and with the use of eco-methods.
2. Building a platform for future partnerships. Some will include action 1+2 in the EuroMed youth program #4 (youth exchange and EVS).
3. Developing senior members of staff that will act as multipliers and develop the youth participating in the different organizations' programs.

Who are we:

Friends by Nature (FBN) works primarily with Ethiopian Israelis and focuses on sustainability, the environment and empowering immigrant communities. FBN works with Ethiopian-Israeli immigrant communities to develop leaders who stay in the neighborhood and lead programs and initiatives that help strengthen the immigrant population. The efforts of FBN are centered around empowering and supporting neighborhood youth and focusing on sustainable and environmental initiatives.

Who are we looking for?

- **European NGOs** dealing with subjects of social and cultural inclusion of minorities, active in their communities.
- Interested in cooperation through different youth programs.
- Organizations that use methods of eco-work (for example- community gardening, hikes, recycling etc.).

If you are interested, please don't hesitate and make contact with us today!
